Our heritage

Established in 1990 with a genuine passion to help, we innovate to create breakthrough technologies so our clients can manage their daily physical challenges with the dignity they deserve.

Built from the ground up by a New Zealand family, we design, manufacture and export specialist seating and high-quality clinical equipment for children and adults living with complex medical needs.

Benefits of Spex technology

Modular approach for all types of wheelchair users

Easy on-the-spot contouring for asymmetric/complex postures

Growth-adjustable and adaptable for long term user experience

Comfortable and pressure relieving

Simple and easy for anyone to order, install and adjust

Sustainable – can be refurbished and issued to multiple users over time.

Let's 'shape better lives' together!
